CRYSTAL @ CAVIAR

CRYSTAL CAVIAR company based in the Czech Republic was the dream - come true, of an owner of the company, Mr. Marek Landa. He always dreamed he would start to create something, what no one has ever produced before – luxury Bohemian glass art chandeliers and crystal sculptures safely installed on superyacht boards. So far the company has completed more than 70 superyacht projects and it is almost the only supplier of glass chandeliers and sculptures to the yachts in the world.

Apart from chandeliers on yachts, Crystal Caviar also provides custom-made luxury glass products into private residences and 5*hotels, and also do its own designs. Good example of that activity is brand new Prism bud chandelier. But all products has in common one thing: every piece of glass is handmade by Crystal Caviar's craftsmen.

Crystal Caviar also cooperates with the best Bohemian glass artists, special honor is to work with Mr. Vlastimil Beranek, Mr. Jan Frydrych, Mr. Jaroslav Prošek. Mr. Beránek mostly works with glass, but also with bronze and wood. Mr. Frydrych specialises in creating of optical glass sculptures and is an author of unique series of yacht chronometers.

With every project people from Crystal Caviar always try to create something extraordinary, with special care and in the highest quality, from the best, luxury materials.
